

Add eContent to your library instantly with GalaxyLibrary's
CONSTELLATION LIBRARY

Classics **Mystery Novels**
Children's Books
Fiction **Biography**

Provide patrons with over 3400 titles (and growing), in the most accessible online reading format available - 24 hours per day, 7 days per week. Add eBooks and large-type eBooks to your library, eliminating the need to wait on checked out books.

No software is necessary; just a browser, an Internet connection and a patron number. The ION Online reader format, used for library access, is the only reader designed to make content as readable on-screen as it is on paper. The ION Online reader meets and exceeds Section 508 & ADA requirements for low vision users, allowing visually impaired patrons to adjust the type size over 1 inch in height (96pt).

Everyone Benefits!

- School students fulfilling summer reading requirements
- Elderly patrons needing large font reading materials
- Avid readers wanting a larger selection
- Librarians who want to improve content availability

For \$100 a month per building (the cost of 4 hard cover books!), every patron of your library will be able to read any book in the entire GalaxyLibrary system for as long and as often as desired. Constellation Libraries become self-funding when patrons choose to buy eBooks in other formats from your library.

You must see it to believe it! Go to <http://www.galaxylibrary.com> and click on the "Free eBooks" tab. You can read "Robinson Crusoe" in the same way as a library patron.

Discover the comforts and versatility of eBook reading.

Add eBooks to your library

A growing list of available content in the Constellation Library
